# Halloween Safety Tips For Kids

Wearing masks is not a good idea because it can block your vision.

If you wear face makeup, make sure it s non-toxic and hypoallergenic.

Make sure your costume is flame retardant.

Avoid wearing oversized clothes and shoes to keep from tripping.

Carry a flashlight after dark or wear reflective tape on your costume.

Never enter a stranger s house.

Never trick-or-treat alone. Travel in groups with friends and family, and have at least one adult with you.

Stay on sidewalks and crosswalks and be careful crossing streets.

Look left, right, then left again, before crossing the street.

Walk, do not run, from house to house.

Do not cross yards and lawns.

Walk on the left side of the road facing traffic, if there are no sidewalks.

Wear comfortable, safe shoes.

Never accept rides from strangers.

Be polite and say thank you.
